

MetaJure SPOTLIGHT™ - The simple, powerful and cost effective service for managing, searching and sharing case records

Gain insights, evaluate risks, and develop your strategy quickly and efficiently

Clients expect value for every dollar they spend with you. So, using the technology solution at the scale that fits your case is essential for today's modern practice. While every case requires thorough and smart analysis, not every case justifies expensive eDiscovery software. Unfortunately, lawyers with smaller cases have faced a no-win dilemma: Apply the overkill solutions of complex legal review software or figure out which is the right tool among the Swiss Army knife approach of today's practice management.

Now, there's a better solution.

SPOTLIGHT provides a fast, powerful and simple solution, whether you're preparing for litigation, beginning the due diligence needed for a business transaction or evaluating which documents to send to opposing counsel. With SPOTLIGHT, lawyers can quickly profile and filter information so it is easy to analyze, key documents are easy to spot and exporting is a breeze.

What is SPOTLIGHT?

SPOTLIGHT is a new Cloud-based solution designed for today's busy practice. Lawyers simply send their case documents to MetaJure via online transfers, secure email, discs or thumb drives and MetaJure does the rest. We create a personalized website hosted on Lexis Nexis secure cloud with all of the information and return a link to you quickly and securely. Your files are now fully indexed and ready to search. There are no time consuming data conversions and with our powerful search engine, finding what you need is fast and easy.

Your Customized SPOTLIGHT Website Gives You:

- **Easy Access and Sharing of Case Information** – With MetaJure your case documents are quickly loaded onto a secure website where you can easily search and share them with co-counsel, your client and members of your team.
- **Trusted Security** – MetaJure's private cloud is hosted by LexisNexis, one of the most trusted names in the legal market.
- **Focused Search** – You can quickly and easily search the information and scope what you need by just clicking a link to a simple, Google-like interface on your PC or mobile device. MetaJure SPOTLIGHT eliminates duplicates from your search results, while preserving a record of how many duplicates there are and where they were found, in case you need to access them.

When litigation teams need an easy tool to access and analyze documents from opposing counsel, they turn to MetaJure SPOTLIGHT. Cases demand smart, thorough analysis and often involve thousands of documents. When suits aren't large enough to justify huge investments of time and money in complex eDiscovery tools, SPOTLIGHT is the answer.

- More -

- **Automatic OCR for Full Text Search** – Image-only records are no longer a problem either, as SPOTLIGHT automatically OCRs them and then indexes all of these records, making them easily text searchable.
- **Easy Export** – Exporting a subset of records to a thumb drive for a deposition, trial or for production to opposing counsel can be done with a simple click of a mouse.
- **No IT Support Needed** – Because all of your records reside your personal website there's no need to involve your busy IT staff.
- **Smart Pricing** – Starting at only \$1,000 per case, MetaJure SPOTLIGHT includes 1 hour search optimization consulting, up to 20GB storage and 3 months hosting fees.

Finally, an affordable, easy and powerful solution to managing your case documents.
