

# MetaJure SPOTLIGHT OCR™

## *Expedited OCR Conversion of Your Image Files into SPOTLIGHT for Easy Search!*

MetaJure offers accelerated scanning, indexing, OCR (Optical Character Recognition) processing for searchable PDF files, as well as storage services for firms needing fast, complete scanning and imaging for large scale projects. SPOTLIGHT OCR is an affordable, easy solution that can be customized for you.

- Access large volumes of legacy data or the files associated with a case in just days
- Receive your data in the format you need, whether it is a custom location in the Cloud, on your server or on CD-ROMs or in other formats.
- Get immediate assistance from our IT specialists who will work closely with you to design and deliver the solution that most effectively meets your needs.

### Easy Ordering

Gain immediate access to all your data in just three easy steps.

<p>1. <b>Identify the Documents:</b> Identify the documents you need to be OCR'd.</p>	<p>Whether it's all the files on your server, or a large batch of documents that just arrived in response to discovery requests, let us know what data your firm needs OCR'd. MetaJure will work with you to efficiently obtain and index the data.</p>
<p>2. <b>Approve Your Estimate:</b> Within 24 hours after receiving your data, MetaJure will deliver a price estimate and completion timeline to you.</p>	<p>Once you've provided MetaJure with the documents you want OCR'd, we'll take it from there! We do all the sorting and counting. You will receive a cost estimate for indexing and OCR'ing all your data within 24 hours of receiving all files.</p>
<p>3. <b>Get Started:</b> Once you approve the estimate, MetaJure will immediately OCR and index all of your data.</p>	<p>MetaJure will deliver all your data indexed and OCR'd within 2-7 business days, depending on the volume of documents. You'll also receive a custom SPOTLIGHT search interface, giving you – easy access and searchability of all of your documents in one location.</p>
